

ENG CIRCULAR - 003

No: ENG/EXAM-17(26)/2000 Date : 19th January 2001

The MEO Examination of Class II (old) under the 1989 Examination Rules have been terminated in the month of December 2000. However, since the number of candidates who had appeared in the last month i.e. November & December 2000, were very high, many of them could not get a second chance for reappearing in the examination. In order to ensure the smooth transition from the examination under the 1989 Examination rules to the Examination under 1998 Rules, provision has been made to credit the result of Part 'A' and Part 'B' subjects in the Class II (old) Examination conducted under MEO 1989 Rules towards the Class IV (new) Certificate of Competency under the 1998 Rules. However, to facilitate more number of candidates to appear and clear subjects in their old Class II Part 'B' examination, the Chief Examiner of Engineers has decided that one more examination of Class II (old) Part 'B' under the MEO 1989 Examination Rules shall be conducted in the Month of March 2001 only for those candidates who have already appeared earlier and failed in some of the subjects. Under no condition would first time candidates or candidates with left over subjects of Class II Part 'A' (old) be allowed to appear for the examination. The timetable and date of examination for the Class II Part 'B' (old) examination are given hereunder for your information. The same may be given wide publicity and owners and managers duly informed so that the candidates get their due.

This is for your kind information.
